

**TEST CERTIFICATE / SHIELDING ATTENUATION / LF magnetic field**

**Material under test**

Magnetic shielding film **MCL61**

**Subject**

Measurement of the attenuation of low frequency magnetic fields from **10 Hz to 100 kHz**.

**Date of measurement**

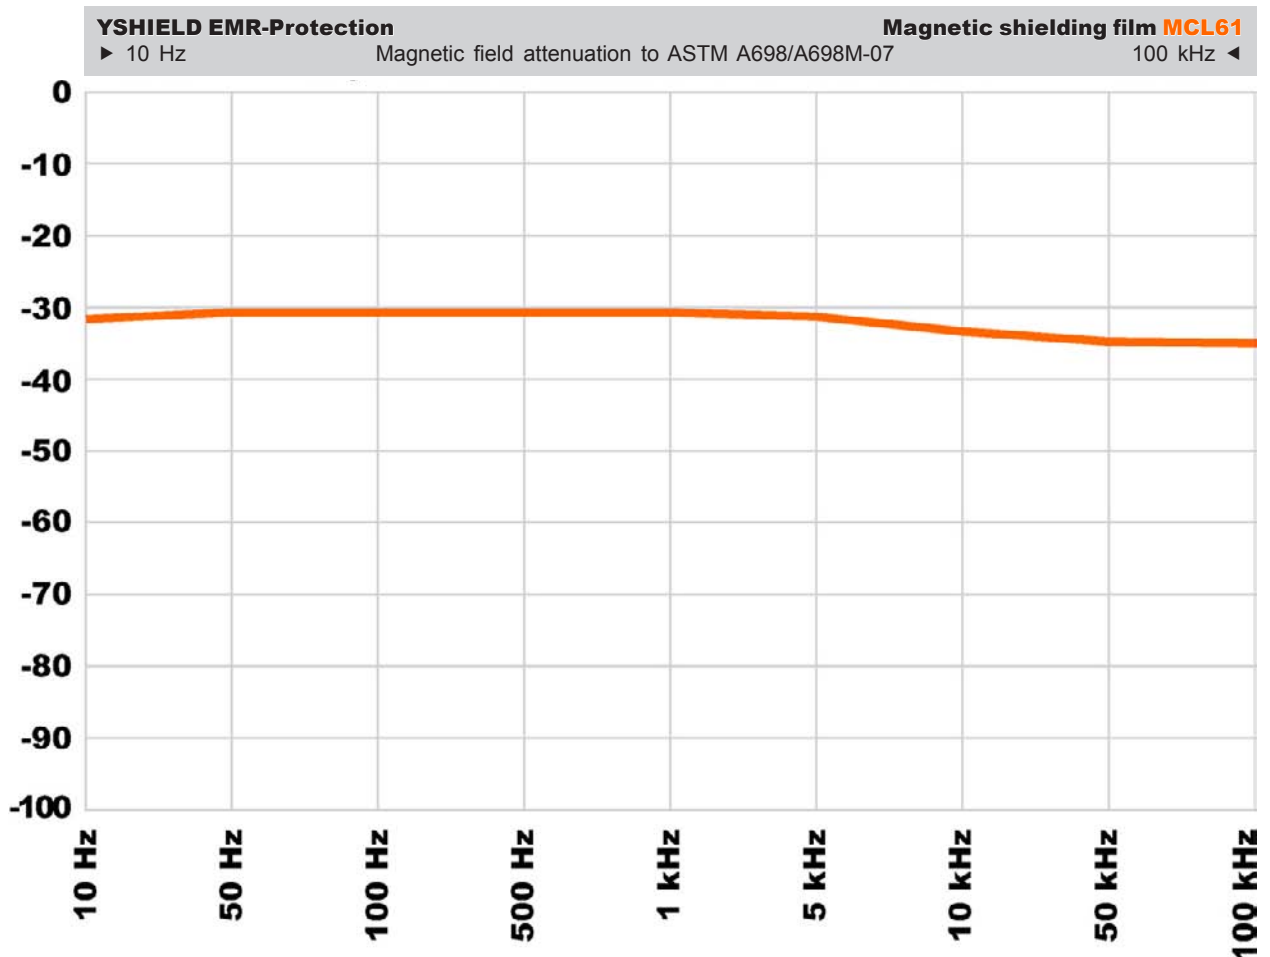

11 th of juli 2013

**Guarantee**

We at YSHIELD have many years of know-how in measuring the attenuation of shielding products. Herewith we guarantee the technical accuracy and correctness of the measurement.

**Regulations**

Measurement with two helmholtz coils according to **ASTM A698/A698M**.

**TEST CERTIFICATE / SHIELDING ATTENUATION / HF**

**Material under test**

Magnetic shielding film **MCL61**

**Subject**

Measurement of the shielding attenuation of electromagnetic waves from **30 MHz to 4 GHz**.

**Date of measurement**

11 th of juli 2013

**Guarantee**

We at YSHIELD have many years of know-how in measuring the attenuation of shielding products. Herewith we guarantee the technical accuracy and correctness of the measurement.

**Regulations**

Near-field measurement with non-directional (radial) polarisation in TEM specimens according to **ASTM D4935-10**.
